

HOW DOES IT WORK?

To get started with Wealthkonet Global Services' crypto and FX trading investment, follow these steps:

Registration

Create an account on our platform by providing necessary details such as name, contact information, email and Whatsapp enabled contact.

Package Selection

Choose an investment package based on your risk tolerance and profit expectations, ranging from 10% to 30% per month.

Risk Level

Each package as a particular percentage that you can lose, but would never lose your entire capital.

Risk Management

Employing sophisticated risk management techniques, we aim to safeguard your investments from market volatility. This includes setting stop-loss levels, diversifying portfolios, and adapting to changing market conditions.

Duration and Withdrawal:

Your investment matures after a minimum of 30 days. Withdrawals are processed on the first week of each new month.

Minimum Trading Capital

Start with a minimum trading capital of N10,550. Enjoy a privilege of up to 10% monthly profit on your capital.

Funding Options:

Fund your account directly using our platform's wallet address or utilize approved agents on our platform for seamless transactions.

Account Security

Maintain the confidentiality of your account credentials. Report any unauthorized access immediately.

Communication

Receive transactional emails, updates, and newsletters related to our services. Opt-out options for non-essential communication are available.

Compliance

We adhere to data protection laws and regulations, ensuring the privacy and security of your information.

Note: By following this comprehensive process, Wealthkonet Global Services strives to make crypto and FX trading investment accessible, transparent, and tailored to your financial aspirations. Our goal is to provide a transparent, user-centric platform to help you achieve your financial objectives.
